SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

JUNE 1942

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which official inspection work is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year (foreign, 60 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

DISTRIBUTION OF DEPARTMENT PUBLICATIONS THAT RECOMMEND SCARCE MATERIALS

Various publications of the Department of Agriculture recommend or discuss the use of chemicals, drugs, and related materials, some of which are no longer readily procurable because of the war. The principal publications used by the Bureau that recommend materials now difficult to obtain are the following:

Farmers' Bulletins Nos. 449, 578, 666, 810, 840, 926, 954, 1018, 1069, 1155, 1179, 1244, 1268, 1330, 1350, 1409, 1422, 1437, 1487, 1508, 1549, 1554, 1584, 1596, 1652, 1753, 1764, and 1841.
 Technical Bulletins Nos. 384 and 497.
 Circulars Nos. 154, 438, 478, and 614.
 Leaflets Nos. 75 and 88.
 Department Bulletin No. 1246.
 Yearbook Separates Nos. 1698, 1700, 1709, 1710, and 1715.
 Other publications, B. A. I. Order 309.

In order to inform readers of the Department's interest in helping them obtain suitable substitutes, when known, the Department is now preparing a publication dealing with wartime scarcity of materials used in livestock production and in the control of animal diseases and parasites. Pending the issuance of that publication, Department officials request that the following notice accompany the distribution of the publications listed above and any others that mention scarce materials:

IMPORTANT NOTICE TO READERS OF THIS PUBLICATION

Many materials mentioned in the United States Department of Agriculture publications have now become scarce or unavailable for civilian use because of the war. If the reader finds that this publication recommends the use of any materials, equipment, or supplies that he is unable to get now, he will naturally do the best he can with any substitutes he can obtain. Probably in most cases an effective substitution will be difficult, either because of lack of materials or the unsuitability for the purpose of those available. Furthermore, some substitutes, for example spray materials, may be either harmful or ineffective. Great caution should therefore be exercised in their use, particularly those untested for the proposed service.

When in doubt about the advisability of using certain materials as substitutes for those recommended, readers should consult county agricultural agents, State agricultural specialists, and County and State War Boards. The Department is preparing a list of suggested substitutes for some of the more commonly used critical materials. This list, as it is prepared and revised, will be furnished the above-named officials, and it may be obtained from them or from the Division of Publications of the Department in Washington.

Employees in all offices of the Bureau, both in Washington and in the field, who distribute publications, are requested to enclose a copy of the foregoing notice with each publication to which the notice applies. A supply of the notice may be obtained, on request, from the Editorial Office of the Bureau in Washington, D. C.

NEW PUBLICATIONS OF THE BUREAU

[The Bureau keeps no mailing list for sending publications to individual employees, but sends copies to officers in charge of stations and offices. These publications should be regarded as notification copies. So far as possible additional copies will be furnished on request.]
